Dear Mojio,

I'd like to express my interest in applying for the UX Intern position in Palo Alto, CA. After reviewing the Overview, Responsibilities, and Requirements, I felt the urgent need to reach out to show my interest for potentially being part of your rapidly growing connected car industry.

For the past year I studied and worked along with my mentor at Bloc's Immersive UI/UX Design program, learning all the foundational aspects and business objectives and applied those skills into my three products, which one of them, *Ponocrave*, is an ios mobile food truck app, that genuinely epitomizes who I am as an eco-earthling, designer, and educator. For each product, I used my own user-centered design process starting from conducting user research, concept ideation, user flows, style guides, high-fidelity prototype, testing, and validation. A more detail-oriented strategy is also on my website that I built on my own with HTML, CSS, Javascript (JS). I have extensive knowledge and fluency in a variety of design tools including Adobe CS, Sketch, Invision, and I hope to bring my artistic and creative background to the team if needed. I am a hardworking designer who's willing to always learn to improve. I believe I thrive most when surrounded by a collaborative environment with creative designers who strive to deliver an empathetically engaging "moment of delight" for users.

I am a hard worker, and I can assure you that I will bring the proper skill set for the UX Intern role. I appreciate for your time and consideration and I look forward to the opportunity to speak with you further.

Mahalo,
Robert Hiro Kameda
