Dear Pinnacle Group,

I'd like to express my interest in applying for the UX Designer role in San Diego, CA. After reviewing the role's description, responsibilities, and qualifications, I felt the urgent need to reach out to show my interest for potentially working at your organization.

For the past year I studied and worked along with my mentor at Bloc's Immersive UI/UX Design program, learning all the foundational aspects and business objectives of what UI/UX Designer must have, and created three projects (Ponocrave iOS, Walden, & Blocbox) covering all the design processes starting from research and finally validating the products. I can confidently assure you that I can utilize my skills in prototyping, interaction design, and visual design to deliver innovative end-to-end user experience, which is proven from my works on my portfolio. Tools that I have used for the past year equates to the role such as HTML5, CSS3, Javascript, Sketch, Adobe CS and Invision. I am a hardworker and I believe I thrive most when surrounded by a collaborative environment with designers who value empathy as a priority when solving the customer's painpoints.

I truly believe I can bring the expectations of the ideal UX Designer position at Pinnacle Group to life, and it would be a privilege to work along with other creative, user-centered designers for the purpose of solving problems through design. I appreciate for your time and consideration. I look forward to the opportunity to speak with you further.

Sincerely,
Robert Hiro Kameda
