SunLink Corporation
2 Belvedere Place, Suite 210
Mill Valley, CA 94941

Dear SunLink,

I'd like to express my interest in applying for the UX Designer position in Mill Valley, CA. After reviewing the business philosophy, duties & responsibilities, and requirements, I felt the urgent need to reach out to show my interest for potentially being a part of your solar energy organization.

For the past year I studied and worked along with my mentor at Bloc's Immersive UI/UX Design program, learning all the foundational aspects and business objectives and applied those skills into my three products, which one of them, *Ponocrave*, is an ios mobile food truck app, that genuinely epitomizes who I am as an eco-earthling, designer, and educator. For each product, I used my own user-centered design process starting from conducting user research, concept ideation, visual design, branding, high-fidelity prototype, testing, and validation. A more detail-oriented strategy is also on my website that I built on my own with HTML, CSS, Javascript. I have extensive knowledge and fluency in a variety of design tools including Adobe CS, Sketch, Invision, and I hope to bring my artistic and creative background to the team if needed. I am a hardworking designer who's willing to always learn to improve. I believe I thrive most when surrounded by a collaborative environment with creative designers who strive to deliver an empathetically engaging "moment of delight" for users.

Having to be a passionate advocate of sustainability and renewable energy, I genuinely believe I'm a potential fit to the company's culture and business philosophy. I can assure you that I will bring the proper skill set for the UX Designer role. I appreciate for your time and consideration and I look forward to the opportunity to speak with you further.

Sincerely,
Robert Hiro Kameda
