Berkeley, CA 94710

Dear John McNeil Studio,

I'd like to express my interest in applying for the Interaction Design Intern role at Berkeley, CA. After reviewing the role's description, responsibilities, and qualifications, I felt the urgent need to reach out to show my interest for potentially being a part of your creative and innovative organization.

For the past year I studied and worked along with my mentor at Bloc's Immersive UI/UX Design program, learning all the foundational aspects and business objectives and applied those skills into my three products, which one of them, *Ponocrave*, is an ios mobile food truck app, that genuinely epitomizes who I am as an eco-earthling, designer, and educator. For each product I thoroughly covered all of the design processes starting from conducting user research, concept ideation, storyboards, prototypes, testing, and validation. A detail-oriented strategy is also on my website that I built with HTML, CSS, Javascript. I have extensive knowledge in a variety of design tools including Adobe CS, Sketch, Invision, and I hope to bring my artistic background to the team if needed. I am a hardworker from the heart, and I believe I thrive most when surrounded by a collaborative environment with optimistic designers who value empathy and strive to bring a "moment of delight" for users.

Having to be an entry-level designer, I genuinely cannot think of any other company to work for. I am a hard worker and I plan to learn from experienced designers on becoming a more holistic and empathic creative thinker. I appreciate for your time and consideration and I look forward to the opportunity to speak with you further.

Sincerely,
Robert Hiro Kameda
