Hello Design

10305 Jefferson Blvd
Culver City, CA 90232
USA

Dear Hello Design,

I'd like to express my interest in applying for the UI/UX Designer position at Los Angeles, CA. After reviewing company philosophy, and requirements of the ideal candidate, I felt the urgent need to reach out to show my interest for potentially being part of your innovative company.

For the past year I studied and worked along with my mentor at Bloc's Immersive UI/UX Design program, learning all the foundational aspects and business objectives and applied those skills into my three products, which one of them, *Ponocrave*, is an ios mobile food truck app, that genuinely epitomizes who I am as an earthling and designer. My design process starts from conducting user research, concept ideations, detailed storyboards, wireframes, mock ups, style guides, and high-fidelity prototypes. A more detail-oriented strategy is also on my website that I built on my own with HTML, CSS, Javascript (JS). I have extensive knowledge and fluency in a variety of design tools including Adobe CS, Sketch, Invision. I thrive most when surrounded by a collaborative environment with creative designers who strive to deliver an empathetically engaging "moment of delight" for users.

I am a hard worker, and I can assure you that I will bring the proper skill set for the UI/UX Designer position. I appreciate for your time and consideration and I look forward to the opportunity to speak with you further.

Mahalo,
Robert Hiro Kameda
