Dear Box,

I'd like to express my interest in applying for the Product Designer role in Redwood City, CA. After reviewing the role's purpose, responsibilities, and requirements, I felt the urgent need to reach out to show my interest for potentially being a part of your user-focused organization.

For the past year I studied and worked along with my mentor at Bloc's Immersive UI/UX Design program, learning all the foundational aspects and business objectives and applied those skills into my three products, which one of them, *Ponocrave*, is an ios mobile food truck app, that genuinely epitomizes who I am as an eco-earthling, designer, and educator. I've also worked on Blocbox that shares similar attributes to Box's products, and this gave me a valuable vision of how Box's Design team operates (to a certain extent.) For each product I thoroughly covered all of the user-centered design processes starting from conducting user research, concept ideation, wireframe, high-fidelity prototypes, testing, and validation. A detail-oriented strategy is also on my website that I built on my own with HTML, CSS, Javascript. I have extensive knowledge in a variety of design tools including Adobe CS, Sketch, Invision, and I hope to bring my artistic background to the team if needed. I am a hardworker from the heart, and I believe I thrive most when surrounded by a collaborative environment with creative designers who value empathy and strive to deliver a "moment of delight" for users.

I am a hard worker, and I can assure you that I will bring the proper skill set for the Product Designer role. I appreciate for your time and consideration and I look forward to the opportunity to speak with you further.

Sincereley,
Robert Hiro Kameda
